

# Remarkable Results ...with Shiel's LabCare Plus<sup>®</sup>

Shiel introduces the next generation of Intuitive Processing Technology and Innovative Reporting Solutions.

## REDISCOVER POWER. SPEED. VERSATILITY.

*Discover why the world's most powerful laboratory system is also the easiest to use.*

- LabCare Plus gives you total control and access to all your patient data with the click of a mouse.
- LabCare Plus can be used internet connected or offline with your existing computer hardware, or we can provide a PC for you.
- LabCare Plus delivers powerful, remote-site requisitioning solutions to seamlessly track every stage of pre-analysis. This includes test ordering, sample drawing, and laboratory receipt of samples.
- LabCare Plus gives you the confidence of fast, single-system integration—from physician to phlebotomist to lab personnel to result delivery. It's the only system you'll ever need.
- LabCare Plus works with any Operating System (OS) platform: **Windows, MAC OSX, Unix**
- LabCare Plus gives you the tools to educate your patients with an easy access, non-technical printable database of laboratory tests

## REINVENT DATA ENTRY

*Move beyond the non-productivity of repetitively writing lab forms, updating patient charts, and moving results where they need to be.*

- LabCare Plus<sup>®</sup> is compatible with virtually any Practice Management System offering **Electronic Medical Record (EMR)** capability.
- LabCare Plus effortlessly connects to your existing practice management and/or billing system to completely eliminate manual patient data entry.
- LabCare Plus seamlessly interfaces with any pre-existing patient demographic database or practice management and/or billing system.

## REDEFINE TEST ORDERING

*Requisitioning lab tests has never been faster or easier.*

- LabCare Plus lets you order tests, generate test order forms, and print bar-coded specimen labels with only a few mouse clicks.
- LabCare Plus ends the guessing and confusion of specimen routing to the correct lab by automatically recognizing and printing the appropriate laboratory requisition form for that patient's insurance plan.
- LabCare Plus lets you work faster by maintaining a database of all your practice's referring physicians for delivery of additional report copies.
- LabCare Plus lets you instantly communicate results to referring physicians or patients on demand with its embedded fax module.
- LabCare Plus allows you to do Add-On Testing without ever calling the lab.

**Shiel is Quality...Assured**

# Remarkable Results ...with Shiel's LabCare Plus®

- LabCare Plus assures the right specimen collection every time with one-click specimen requirement listings (for Shiel and other labs as well); eliminating unnecessary patient callbacks.
- LabCare Plus' comprehensive Diagnosis Code database lets you quickly locate (by name or code) and select the proper diagnosis for your patient's condition. No more need for memorizing confusing codes!
- LabCare Plus Intelli-Code Technology verifies coverage of Medicare patients' testing needs by easily locating and listing all acceptable ICD-9 diagnosis codes for any test. Throw out those bulky Medicare ICD-9 manuals and automatically find the right code the Intelli-Code way.
- LabCare Plus **ONLINE**. Not at your office? No room for another computer? LabCare Plus *Online* allows all the functionality of LabCare Plus with just an internet connection.

## RECONNECT INFORMATION

*LabCare Plus means total access of patient results from home, office, or wherever you may be.*

- LabCare Plus provides immediate answers where and when needed by allowing you to view, print, and fax patient results from anywhere using Shiel's encrypted website.
- LabCare Plus has **full network capability** for practices requiring multiple specimen processing workstations.
- LabCare Plus makes sharing data easier than ever. Simply export data to any spreadsheet program for customized data reports.

## REPORTS ON SCREEN. ON TIME.

- LabCare Plus easily recalls Cumulative Report test results. No more searching through the chart to look at your patient's result history. View and print in multiple grid and graph formats.
- LabCare Plus helps you develop data trends by choosing from a collection of pre-configured reports, or by building custom reports.

## REFINE DIAGNOSIS

Shiel Medical Laboratory and LabCare Plus give you the power to set alert or panic value reporting thresholds to meet your specific requirements.

## REMEMBER TO ASK FOR LABCARE PLUS

*Shiel's LabCare Plus—the intuitive laboratory connectivity system that seamlessly interfaces with your existing practice management software.*

- Hundreds of easy-to-learn features.
- Fully customizable to your specific workflow.
- LabCare Plus is the only laboratory interface you'll ever want!

*Call your Shiel Representative today to find out how LabCare Plus makes ordering and managing diagnostic services faster, easier, and more accurate than ever before.*
